Education

KJ Somaiya College of Engineering <i>B.Tech in Computer Engineering</i> GPA: 9.97 / 10.0	Mumbai, MH 2024 – 2028
Mount Carmel College <i>Higher Secondary (ISC): 94.2% Secondary (ICSE): 98.5%</i>	Lucknow, UP 2012 – 2024

Achievements

Datathon 24-Hr Hackathon | First runner-up among 100+ teams for building **Decay-AI**.
AlgoUniversity Tech Fellowship 2025 | Fellow selected among top 0.2% of 250,000+ applicants nationwide.
Problem Solving | Solved **900+** algorithmic problems across CodeForces, CodeChef, LeetCode, and CSES.
IET India Scholarship Award | National Finalist: Top 150 of 44,000 applicants.
SPIT Codebuster Contest | Secured 4th position in city-wide Competitive Programming contest.

Projects

Decay-AI – Trend Decline Prediction Platform <i>Node.js, Express, PostgreSQL</i>	Feb 2026
– Built an analytics platform detecting early decline in social-media trends using engagement and saturation signals; designed scoring heuristics to classify trend lifecycle stages and suggest emerging alternatives.	
Mentora – Student Engagement Tracker <i>React, Python, OpenCV, Supabase, Express</i>	Jan 2025
– Developed a full-stack monitoring system using OpenCV to track engagement signals in real-time with automated insights and alerts via real-time data synchronization.	
Civil Setu (Civic Eye) <i>Node.js, YOLOv8, MongoDB, React Native</i>	Nov 2025
– Engineered an AI-driven grievance platform with automated image-based issue classification and scalable pipelines for high-volume user-generated content.	

Experience

Technology Intern <i>Formial Labs</i>	May 2026 – Present Bengaluru, India — Remote
– Built D2C storefront features, subscription flows, and custom integrations using Shopify, Razorpay, and REST APIs .	
– Implemented analytics and tracking infrastructure using GA4, GTM, and Meta Pixel for performance monitoring.	
AI Content Engineer & SEO Strategist <i>Freelance</i>	Nov 2019 – Present Remote
– Built SEO-driven content systems and LLM-powered workflows for consumer-focused brands.	
– Applied keyword clustering, SERP analysis, and trend mapping to improve conversion-focused content performance.	
KJSCE CodeCell Member <i>K.J. Somaiya College of Engineering</i>	Oct 2024 – Present Mumbai, MH
– Co-leading technical events for 500+ students and contributing to competitive programming initiatives.	

Technical Skills

Languages: Java, Python, C/C++, JavaScript, TypeScript, SQL, HTML/CSS
Frameworks & Libraries: React, Next.js, Node.js, Express, Flask, Tailwind CSS, OpenCV
Databases & Cloud: PostgreSQL, MongoDB, Supabase, Firebase
Tools & Platforms: Git, GitHub, Postman, Vercel, Shopify, Razorpay, GA4, GTM, Meta Pixel
